

EDUCATION

University of Electronic Science and Technology of China <i>MSc in Computer Science, Laboratory of Intelligent Collaborative Computing</i> <i>Graduate study in agent systems and machine learning.</i>	<i>Sep 2024 – Jun 2027</i> <i>Chengdu, China</i>
Ningbo University <i>BSc in Information Management and Information Systems, School of Business</i> <i>Information systems, data analysis, and software foundations.</i>	<i>Sep 2020 – Jun 2024</i> <i>Ningbo, China</i>

RESEARCH

OWL: Optimized Workforce Learning for General Multi-Agent Assistance <i>Researcher, fifth author – NeurIPS 2025</i>	<i>Feb 2025 – Sep 2025</i> <i>Remote</i>
- Co-developed Workforce, a hierarchical multi-agent architecture that separates domain-agnostic planning, subtask coordination, and specialized tool-using workers. - Reported 69.70% on GAIA and 52.73% for the OWL-trained 32B planner; the paper was accepted at NeurIPS 2025. Paper Code	
Structured Matrices for Long-Sequence Time-Series Forecasting <i>Researcher, fourth author – Neurocomputing 2025</i>	<i>Jan 2024 – Apr 2025</i> <i>Chengdu, China</i>
- Introduced structured surrogate attention and feed-forward blocks that retain expressive power while reducing time, space, and parameter costs. - Experiments over ten Transformer-based models reported a 12.4% average performance gain and 61.3% parameter reduction. Paper DOI	

SELECTED SYSTEMS & OPEN SOURCE

Tool-Genesis <i>Maintainer</i>	<i>2026 – Present</i> <i>Open source</i>
- Developing a benchmark for latent contract recovery in MCP tool creation, spanning 86 server specifications, 24 domains, and 508 ground-truth tools. - Built a four-level diagnostic evaluation from surface compliance and schema fidelity to held-out functional tests and downstream task utility. - Published 9,441 held-out tests and a compact public dataset for reproducible evaluation. Repository	
Agent Infrastructure Contributions <i>Open-source contributor</i>	<i>2025 – Present</i> <i>Remote</i>
- Added asynchronous execution support to CAMEL-AI’s BrowserToolkit in merged pull request #1886. - Delivered 21 merged pull requests to Conpera Town, covering economy systems, persistent interiors, map tooling, furniture APIs, and Tiled integration.	

HONORS & AWARDS

Gold Award	Provincial E-Commerce Innovation, Creativity and Entrepreneurship Challenge 2023	
Honorable Mention	Mathematical Contest in Modeling	2023
Second Prize	China Undergraduate Mathematical Contest in Modeling	2022
